

Dear music editors,

During times of global fear and depression we felt that we should give our best to send a positive sign and uplift.

Our local government of Bavaria (Germany) orders that we all stay „at home“ because of COVID-19, but as we are used to working on remote anyway and as modern studio technology makes it possible, we simply focused with love and passion on creating 3 exclusive Singles which will be released this month on all major online stores and streaming portals around the globe.

We invite you and your dear readers/listeners to download these 3 Singles for FREE (allowed for personal/private consumption) until **April 30, 2020**, as special gift!

These 3 Singles cover a wide range (from Epic/Orchestral to modern Hip Hop/ Urban and EDM) and were created in devotion & love in order to strengthen hope, faith and charity...
enJOY!!

- 1.) „**Rise Above Fear**“ has been composed as an emotional orchestral song for all people who are looking for inner peace, stress relief and reduction of anxiety; it assists in literally lifting one’s mind above the turmoil of fear and doubt. This single will be released via the German Epic & Hybrid Label **EPIC DELIGHT**:

- 2.) As the younger generations resonate more with cool, modern sounds, we also created an energetic Song, entitled „**Take Me Higher**“, which is also meant to support emotional uplift and hope. This Single will be released via our label **SONIC JOY Records** as addition to our young Hip-Hop / Urban project **NIGHT CREED**

- 3.) Many people are craving for visiting clubs and concerts but are temporarily forced to „dance at home“. Our answer is „**Back To Life**“, a powerful and highly melodic EDM track which will be released under the roof of our Dance & EDM project **DANCE EUPHORIA**. „Back To Life“ is meant to re-awaken your zest for LIFE and joy of dancing (right now at home); it wants to spread uplifting vibes and our belief that there are better recipes for humanity than frustration and fear.

Musical & encouraging greetings from the very South of Germany,

John Meisel & Team
